

## **New Requirement for Miami University B.S. Electromechanical Engineering Technology Concentration Majors**

Beginning Summer 2006 all students in the Miami B.S. EMET concentration are required to bring their own laptop to class. Because of the cost the basic laptop requirements are kept to a minimum. All laptops should be at least:

600 Mhz.  
20 gig hard drive  
256K Memory

There are many used laptop dealers who can provide a laptop with at least the above requirements in the \$300-\$400 range.
